- Support the development, periodic update, assessment and implementation of the College's Sustainability Plan that promotes efficient use of resources and sustainable practices in attainment of the College's Strategic Plan. Goal 4 "Lead the institution to excellence through the continuous improvement and the effective and efficient use of resources to maximize student success". This includes:
  - Assessing the state of environmental stewardship at Atlantic Cape's academic curriculum and operations.
  - Building on current college strengths in environmental stewardship, develop environmentally sound practices and policy recommendations.
  - Recommending strategic statements for the development of the College's environmental stewardship policies.
  - Developing goals, strategic objectives and initiatives which create awareness, promote and put into practice environmental stewardship into college operations and curriculum; and address sustainability needs of our stakeholders and the communities we serve.
- Submit annual goals at the start of each year based on alignment to the Strategic Plan and report on outcomes at the end of each year.
- Make recommendations for the best use of available resources during the annual budget preparation process. Budget requests will be sent to Senior Staff by November each year.
- Meet minimally three times a year.
